

MA16004

AMPLIFICADOR DE AUDIO 4 x 3000W RMS 2 Ω

Features:

- Our patented Class ITM output circuitry, high efficiency and high sound quality.
- Combined with the traditional industrial frequency power supply, exquisite, simple sense, soft, open, to create a wonderful high-fidelity playback space.
- Our patented temperature gain and power clamped control technology, make an effective protection for stability of the long-term and full-loading application.
- Adopting SMT, AI, ICT full-automatic production and testing technology ensure the standardization and product consistency.
- Patented light-control volume control, greatly improve the background noise indicator, make a broader pure tone.

Output Power

Model	Watts per channel	Bridge mode
MA16004	4 x 3000W 2Ω	2 x 6000W 4Ω
	4 x 2300W 4Ω	2 x 4600W 8Ω
	4 x 1600W 8Ω
